## SENATOR BATON AND MOTT AYERS ARE BAD FRIENDS

Incident on Floor of Senate  
Yesterday That Indicated  
it.

Falling Out Dates Back to Or-  
ganization.

ON HIRE OF SPECIAL CLERKS.

Frankfort, Ky., Feb. 3. (Special.)—Whatever surprise may have been produced in western Kentucky by the charge in the senate yesterday that Senator W. V. Eaton introduced an amendment to a resolution that reflected on Sergeant-At-Arms Mott Ayres, the surprise is not shared here, where it is well known that the two Paducah gentlemen are "bad friends," and the knowledge of this fact is what induced Senator L. W. Arnett to accuse Senator Eaton on the floor when Senator Eaton proposed to take the distribution of \$2,400 for assistance hire out of the hands of the sergeant-at-arms and place it in the hands of the chief clerk, George Peters.

It is well to bear in mind this \$2,400 is not money devoted to the pay of regular employees at the capitol, but is an extra allowance to take care of some political promises rather liberally given out in effecting the organization of the senate. The resolution was to place this for distribution among the extra help in the hands of Sergeant-At-Arms Mott Ayres. Senator Eaton moved to amend by placing it in the hands of Chief Clerk Peters, and Senator Arnett accused Senator Eaton of inciting a reflection on Mr. Ayres. There were just four votes in support of Senator Eaton's amendment.

The bad feeling dates back to the election of Mr. Peters. It was understood that Senator Eaton was to support Green Keller for clerk, because Keller had promised to make the widow of the late clerk of the senate, William Cronwell, his chief assistant.

The election came on and Senator Eaton voted for George Peters, as did some others counted on as Keller men. Then it developed that a position at \$4 a day had been promised the son of Mrs. Cronwell, and Mott Ayres was approached concerning the appointment. He turned them down on the score that all the places had been promised, and to make their word good, it is said these legislators have been paying that salary out of their own pockets at the rate of \$4 a day.

When the resolution was introduced, placing the \$2,400 at the disposal of the sergeant-at-arms, the amendment was introduced to place the money for distribution in the hands of the chief clerk.

Mr. Eaton said he was not reflecting on the integrity of the sergeant-at-arms, but merely desired that it go to the clerk and that the recipients of the pay be specified. However, the incident was not conducive to more cordial relations between the Paducah gentlemen.

### Barker For K. U.

Frankfort, Ky., Feb. 3. (Special.)—Judge Barker, of the court of appeals, was elected president of the State University.

### Mrs. Brokaw Wins

Minneapolis, L. I., Feb. 3.—In the opinion filed by Judge Putnam, of the supreme court today, Mrs. Mary Blair Brokaw was granted separation from her husband, William Gould Brokaw, and alimony of \$15,000 per year. The opinion holds her allegations of cruelty proven, but his income is not large enough for the \$15,000 alimony asked, so it is cut in half.

### William Bobo Dies

William Bobo, 82 years old, died of general debility this morning at his home at Maxon Mills. The funeral will be held tomorrow morning at Paducah cemetery. He had resided at Maxon Mills 60 years and was a well respected farmer. He is survived by his wife and the following children: Mrs. Martha Sumner and Mrs. D. Faughin, Paducah; Mrs. Ruth Lyton, Ogden's Landing; Mrs. Emma Kirkpatrick, Samoth, Ill.; and Mr. John Bobo, Maxon Mills.

Killed by Train in Deep Cut.  
Bardwell, Ky., Feb. 3.—Sam Winstead, a farm laborer, was struck and killed by an Illinois Central train at the deep cut two miles south of Wickliffe, Ky. He was 56 years of age, and though a resident of this vicinity for several years was formerly of Henderson county, Ky.

## Senator Lodge's Resolution That Committee be Appointed to Look Into Cost of Living Recommended

Five Members Empowered  
to Go Exhaustively Into  
Question—Complaint That  
Census is Not Non-Partisan

Washington, Feb. 3.—The Lodge resolution to investigate the high cost of living by a special committee of five senators, today was favorably reported on by the finance committee to the senate. It was then referred to the committee on contingent expenses in order that the necessary funds be provided.

Census Debate.  
Washington, Feb. 3.—An animated political debate enlivened the session of the house. Charges of partisanship in taking the census were numerous, the Democrats insisting that a non-partisan census is impossible unless the enumerators are appointed from men of both parties. After a long debate the bill amending the census law was passed, providing for the enumeration of cattle slaughtered and hides produced in the country slaughtering houses, together with a provision for the enumeration of information concerning irrigated lands.

Hollinsworth, of Arkansas, read a letter said to have been written by Representative Crow, of Missouri, telling one of his constituents that if he received the appointment as a census enumerator he would have to ascertain the relative strength of the "insurgents" and regular Republicans. The letter stated that the census enumerators' work would be "such as any enthusiastic Republican would be glad to do, and in no way conflict with your duty as an enumerator."

Robinson also quoted a statement to the effect that the writer wanted to know whether the voters were "insurgents" or regulars, and whether their disaffection was great enough to take them out of the party.

Crow was absent and Bartholdt said Crow evidently spoke for himself, and not for the appointing power of the census. "The director of the census would authorize no man to give such instructions," said Bartholdt.

Becher, of Missouri, said he would offer an amendment imposing a fine of \$1,000 or imprisonment for one year upon any census employee who questions anybody about his politics. "Does the gentleman think the secretary of commerce and labor is responsible for these statements by Crow?" inquired Gardner, of Massachusetts.

"I have a resolution to offer inquiring of the secretary whether that is the case," responded Becher.

Sims, of Tennessee, declared that if a non-partisan census is desired, the administration would appoint both Republicans and Democrats for the work. Others declared that a non-partisan enumeration could be made if Republicans only were appointed.

"The man appointed in Chicago as supervisor was not a Republican at all," said Mann, of Illinois.

"Was he a Democrat?" said Rucker, of Missouri.

"We call him a Democrat," retorted Mann.

Charging that the rules of the census provided that in the south negroes be appointed to enumerate the negroes, Bartholdt, of Georgia, declared that it was being done to rally the colored vote and rally colored delegates in the national Republican convention.

Madden, of Illinois, declared that

## Many Suits Are Filed By Tobacco Traders

As a result of the sudden jump in tobacco prices since January 1, it is charged by buyers in the western district that farmers, who contracted for the delivery of their tobacco in December, have been selling it over at a higher price, and suits have been brought in the magistrates' courts here on contracts. A dealer sold one common practice is to deliver tobacco in an ill condition, and if the buyer undertakes to dock the difference in value, the farmer will decline to agree and haul it to some one else. The contracts stipulate that the tobacco

### PRISON FIRE.

Joliet, Ill., Feb. 3.—Fire in an engine room of the state penitentiary today for a time threatened to precipitate a panic among the prisoners confined there. Authorities believe the blaze was started by one of the inmates in order to furnish an opportunity for the prisoners to escape. The engine room is a short distance from the main prison building. An hour after it started it threatened to spread to other structures. The prison fire department was assisted by the city firemen and finally controlled it after the engine room was destroyed. During the fire the guard over the prisoners was doubled and no mutiny was attempted.

the supervisors of the census are appointed without political consideration, saying that he knew that was the case in Chicago.

He did not believe the color of a citizen should bar in taking the census. "The president asked me to suggest a good man for supervisor of the census in the place of the supervisor who died," said Hamlin, of Missouri. "But he insisted that he must be a Republican, and I told him I had no advice to give."

Hardy, of Texas, claimed that partisanship was the keynote of the federal appointments in Texas.

## HUNT FOR ROBBER EXCITES MEMPHIS

HELD UP SIX WOMEN IN FASHIONABLE SECTION OF THE CITY.

Memphis, Tenn., Feb. 3.—Bankers, brokers and business men, heavily armed, are today patrolling the fashionable residence section here seeking a negro, who held-up and robbed six women within the last 24 hours.

Last night the negro held up Miss Anna White within a block of the residence of the mayor, striking her twice in the face and knocking her down. Five minutes later he held-up and robbed Mrs. J. C. Gerkit. Both are society leaders. If the negro is caught officers fear a lynching will occur.

Would Go to South Pole.

Washington, Feb. 3.—Commander Robert E. Peary, discoverer of the north pole, has made a proposition to the National Geographic society, which, if accepted, will mean that an American expedition will be on its way to discover the unconquered south pole next fall.

## TELEPHONE BARRED FROM POOL ROOMS

Jeffersonville, Ind., Feb. 3. (Special.)—On behalf of the state an injunction was granted here today in circuit court, restraining the Cumberland Telephone company from furnishing service to the pool rooms in Jeffersonville. A hard battle in the courts is expected.

## Many Suits Are Filed By Tobacco Traders

is to be delivered in good condition for keeping.

### Suits in Marshall.

Benton, Ky., Feb. 3.—J. L. Sherill & company, big tobacco dealers of Mayfield, brought suit Tuesday in the quarterly court at Benton against the following farmers for a violation of their tobacco contracts: W. R. Birch, Robert Hamlet, Joe Hunt, Claude Nimmo, J. F. Nanny, L. E. Lamb, N. O. Lamb, Joe Hendrickson, John Treas and W. C. Gatlin. This company claims from \$20 to \$120 of each one of these defendants. Jack Fisher, of Benton, is attorney for the plaintiffs. Many suits will be brought not only in Marshall county and Graves county, but perhaps in other counties for a violation of their tobacco contracts.

### In Bankruptcy.

A meeting of creditors was held yesterday in the case of Louis Copeland, a bankrupt fruit dealer, and Marvin Cowell was elected trustee. His bond was fixed at \$400.

## TURKEY GETTING READY FOR FIGHT WITH NEIGHBORS

Sends Minister to Buy Modern  
Instruments of Warfare in Europe.

Depends Upon Greeks' Recognition of Crete.

TRAFFIC RESUMED IN PARIS.

Constantinople, Feb. 3.—The minister of war today dispatched ten officers to various European countries to buy horses and guns, in anticipation of a war with Greece. Four torpedo destroyers also were ordered. The third army corps, stationed at Salonika, has been ordered to cross the frontier the moment the forthcoming Greek parliament accepts the Cretan delegates.

### Plenty of Work in Paris

Paris, Feb. 3.—The last twenty-four hours has shown the biggest improvement of the flood conditions since the Seine began to recede. It is subsiding rapidly and now is at a stage of 21 feet 10 inches at Pont d'Austerlitz. Thousands of men, thrown out of employment by the flood, were put to work today at street and sewer repairing. The improvement in suburbs is not nearly so marked as in Paris.

There was a drop of two feet in the Seine since yesterday. A large part of the flooded section is open and traffic throughout the city except in the subways is almost normal. It is doubtful if Paris ever before presented such a dirty appearance. Huge piles of food refuse are a menace to the health, standing in many parts of the city and every house shows muddy stains. Some of the best stone and marble buildings in the fashionable sections will have to be treated with sand blast, before the marks of the flood can be effaced. Arrangements are being made today to establish free food-depots.

### Steamers Collide.

Hamburg, Feb. 3.—The German steamer Sissana collided with and sank the Swedish steamer Aunla today in the lower Elbe. Six of the anna's crew were drowned.

### Bold Robbery.

Chicago, Feb. 3.—Two men in evening dress rode up to the sidewalk in an automobile last night, and with drawn revolvers forced Jacob Hutz, a restaurant proprietor, into the machine, took him into an alley and robbed him. They secured his watch and \$87. Then the highwaymen rode away.

### Coal Contract Let

The county will be furnished coal by the Central Coal and Iron company. A contract made by former County Judge Lightfoot before he went out of office was dug-up. County Judge A. W. Barkley advertised for bids for furnishing the county with coal, but as the contract is in force a new contract will not be let. The contract is for 7 1/2 cents for coal.

## MAGISTRATES INSPECT COUNTY ALMSHOUSES

Magistrates John J. Bloch and Baxter Kaykendall are expected to return early tomorrow morning from Louisville, where they went to inspect the Jefferson county almshouse, and the Jefferson asylum. They are members of the poorhouse committee of the fiscal court and made the trip to get pointers on framing a set of rules for the McCracken county poor house.

## GOEBEL'S STATUE IS UNVEILED AT CAPITAL

Frankfort, Ky., Feb. 3. (Special.)—The monument in memory of Senator William Goebel was unveiled today at noon in the presence of a large crowd. The general assembly adjourned for the occasion. The exercises were carried out as outlined in the program. Many prominent politicians and people over the state were present.

## Ten-Year-Old Prisoner is Brought to Paducah by Deputy Marshal to Answer to Postal Law Warrant

Little Caldwell County Child  
Accused of Opening Letter  
and Appropriating Content  
Released on Small Bond.

One of the youngest prisoners ever arrested by Elwood Neal, deputy United States marshal, was Eddie Perkins, 10 years old. The lad was arrested at Quinn, Caldwell county, on the charge of taking a letter from a rural letter box, and appropriating the contents. The boy is the son of L. O. Perkins. He waived examination, and to avoid sending him to jail, W. A. Gardner, United States commissioner fixed the bond at \$100 for his appearance in federal court next April. Marshal Neal accompanied the little fellow to the Union station at noon as the boy returned to his home.

### Scholarship Prize.

Something more than glory will be gained by the winner of the oratorical contest between the High school of western Kentucky. The Clark School of Business in Louisville has notified the officials that a business scholarship in the school will be awarded the winner of the contest. The contest will be held at the Kentucky theater February 25.

## EVANSVILLE PACKET BURNS IN GREEN RIVER

Evansville, Ind., Feb. 3. (Special.)—The steamer Jewell and the wharf-boat of the Evansville-Louisville mail line, in winter quarters in Green river, were burned this morning. The loss is \$40,000. Ed Lepper, who was asleep on the wharfboat, is believed to be fatally burned.

## BUZZ SAW CHOPS HIS HAND WHEN HE FALLS

Falling on a whirling saw, Lee Wahl, a laborer at Cunningham's mill, had a narrow escape from death yesterday afternoon. His left hand was caught in the teeth and was mangled badly, but fortunately his body was not drawn to the saw. Wahl resides near Lone Oak, and was resting easy today. His thumb, index finger, little finger and third finger were cut and mangled by the saw. Dr. R. C. Gere, who dressed the injury, is uncertain whether he will save the thumb and fore finger. Wahl tripped over a piece of wood, and fell.

## JACK JOHNSON SURE OF GETTING BIG SENTENCE

New York, N. Y., Feb. 3.—On application of District Attorney Whitman the case against pugilist Jack Johnson for beating up Norman Pinder in a negro saloon last month, was today transferred from the court of general sessions to the criminal division of the supreme court for trial. Justice Goff, recognized as the sternest judge on the bench, will preside and the district attorney stated today that he will endeavor to have the trial held within two weeks, although no date is yet set for it. Johnson's attorney is displeased, fearing a prison sentence. Johnson is now out on bail of \$24,500.

## FIRE SMOULDERING IN MINES AT CHERRY

Cherry, Ill., Feb. 3.—Further exploration of the tunnels of the St. Paul mine today made it certain that it will be many days before the 200 bodies, still in the mine, can be recovered. All the tunnels in the interior of the mine are blocked as the result of the falling in of the roofs and the debris. These must be moved before the bodies can be released. Work of clearing the tunnels is extremely hazardous as the tunnel roofs continue to cave-in, endangering the lives of the workmen. It is believed there are about 100 bodies on the second level and as smoldering in the second level. The fire which caused the disaster, is still smoldering in the second level, 250 feet west of the main shaft. Behind the blaze are 100 bodies.

Munfordville, Ky., Feb. 3.—John Sturgeon and his son, who live near Carmer, were bitten by a mad dog, which they killed. They left immediately for the Pasteur Institute in Chicago, carrying the dead dog with them. News from them says the dog had rabies, and that they will have to remain there three weeks for treatment.

### SOCIOLOGY.

Chicago, Feb. 3.—Because he thought the removal of Chief Forester Pinchot was an outrage, Stanley Flydrichowiz, former professor of philology and philosophy in the University of Vienna, is dying in a local hospital today. He was fatally beaten in a saloon, where he had gone during sociological research work. Flydrichowiz came to this country several months ago to study sociological conditions and to investigate the United States forestry service. Early today he and his brother John, stepped into a saloon to have a drink and Stanley started an argument defending Pinchot, and in denunciation of Taft. In the fight ensuing, the Viennese professor was beaten into unconsciousness with chairs and clubs. His skull was fractured and he can't recover. Robert McCall and John Herold are under arrest.

## ST. LOUIS TO GET MINERS' MEETING

STORMY CONVENTION AIMOIRNS  
THIS MORNING AT THREE  
O'CLOCK.

Indianapolis, Feb. 3.—St. Louis was selected by the United Mine Workers of America for the convention of 1911, at 2:30 o'clock this morning. The tumultuous session was not adjourned until 3 o'clock. Indianapolis, Toledo and Rochester, N. Y., all tried for the convention.

### Head Foot Mangled.

Bardwell, Ky., Feb. 3.—Roger Williams, aged 17 years, while jumping on and off a freight train here yesterday, got caught under the train and had his foot and lower ankle badly mangled, necessitating amputation up near the knee.

## PRESIDENT SHERRILL WILL BE TOASTMASTER

President C. H. Sherrill, of this city, will be toastmaster at the annual banquet of the Kentucky Retail Lumber Dealers' association at the Seelbach, Louisville, February 8. Several Paducah lumbermen will attend.

## GROUNDHOG RETIRES AND WINTER RESUMES

Paducah's official weather forecaster has resumed his hole today at the residence of Captain Nathan Smith, 622 Fountain avenue. The little pet ground hog gave such hope of having the backbone of winter broken and failed to venture out today. That accounts for the rain, snow and generally disagreeable climatic conditions today. During the time the ground hog ventured out, his hole was measured and it was found to be six feet from the mouth. It was dug under the house like a tunnel, and it is lined with bits of newspaper by the inhabitant.

## BETTIE OWEN IS GROUNDED HARD

SHE WILL LIE IN CORN FIELD  
UNTIL ANOTHER FLOOD  
COMES.

With a line around the Bettie Owen, the T. H. Davis last evening was unable to ouster the grounded craft, and it is now apparent that the ferryboat will lie in the cornfield, where she is stranded until another flood stage comes, sufficient to lift her out of the water. She is lying in a strained position. There are three holes smashed in her "knuckles," the flat bottom of the hull. Captain Rollins has returned from his quest for a substitute empty handed, but it is expected that a boat will be recovered tomorrow. The Cowling is taking care of the ferry business.

## MEXICAN MINE IS THIRD THIS WEEK IN TRAGEDY LIST

Mexican and Japanese Miners  
Are Killed By Terrific  
Explosion.

Funeral Day in Kentucky  
Mining Town.

CREPE ON MANY RESIDENCES.

Austin, Texas, Feb. 3.—It is now known that over 80 lives were lost in explosion yesterday in the coal mine of the Esperanza Mining company at Las Esperanzas, Mexico, sixty miles from here. Another order was received for cheap coffins today, being rushed on a special train. It is believed all the bodies are recovered. None in the fatal chamber escaped death. Half were Japanese and half Mexicans. The government commission arrived today to investigate. It is claimed gases caused it.

Laredo, Tex., Feb. 3.—An explosion resulting in the deaths of sixty-eight men and in the injury of nearly as many more occurred in the Palau coal mine at Las Esperanzas, Mexico. The explosion occurred in No. 3 shaft. It is attributed to the ignition of gas from the cigarette of a miner, who was smoking, contrary to the rules.

The miners, consisting principally of Mexicans and Japanese, were working as usual when a startling report shook the workings. Instantly a cloud of dust and smoke issued from the mouth of the shaft. As soon as the air purified sufficiently a cage carrying volunteers was sent down followed by others loaded with miners bent on rescuing their comrades. On reaching the first and second levels, everything was found intact and the men safe. Descending to the third level the rescuers found scattered the bodies of suffocated victims their faces indicating, in many instances, the latter fight to reach pure air and safety.

After six hours of work in relays, 53 bodies were brought to the surface, and nearly forty injured were removed to hospitals. Later a dozen more bodies were recovered, and three of the injured died in the hospital. The injured owe their escape from death to the fact that they were working at points in the third level where they were partly protected from the rush of foul air.

As the bodies were brought to the surface by twos and threes screaming women and children crowded about and in many instances hope turned to despair as the bodies appeared and were stretched in rows on the ground. Most of the killed were Mexicans. State representatives supervised the rescue work and are conducting an investigation under telegraphic direction of the governor of Coahuila.

The mine officials have telegraphed Monterey for coffins and have provided money and food for the families of the victims. Palau is one of the best equipped coal mines in Mexico, adequately ventilated, lighted with electricity and the presence of mine damp is unaccounted for.

### At Drakesboro.

Drakesboro, Ky., Feb. 3. (Special.)—All the bodies have been recovered from the Browder mine with the exception of Foreman Pete Kelly. Drakesboro, Ky., Feb. 3.—With crepe on every other door along the two straggling streets of the mining town of Browder and motley funeral corteges moving toward the cemetery largely occupied the evening of death's work in the Elk Valley coal mine. There were no attempts at holding religious services over the mangled bodies.

The last body brought up early in the afternoon brought the count of the dead to thirty-four with one missing. Two of the twenty gotten out alive are expected to die. Nearly all were injured. No attempt has yet been made to call an inquest. The geological survey experts with rescue equipment will find nothing to do when they arrive.

### Understanding Reached.

Washington, Feb. 3.—The state department announces that in all probability a final understanding with Germany on the tariff issue will be reached tomorrow. The probable terms of the agreement could not be learned.

### John Woods Ill

John Woods, of the Maxon Mills section of the county, is seriously ill threatened with pneumonia. His age makes the illness more critical. Mr. Woods is the father-in-law of Clark Portson, former deputy sheriff.

### BEVERIDGE CONTROLS.

Senator's Friends Committee in Indiana.

Indianapolis, Ind., Feb. 3.—The Republicans of Indiana elected thirteen district chairmen, who will compose the new state central committee. The only contests were in the Fourth and Eighth districts. In the Fourth Jacob Bauer, of Lawrenceburg, and Albert E. Tripp, of North Vernon, were contestants, and Bauer won. In the sessions of twelve of today's conventions resolutions endorsing the policies of President Taft and lauding the work of Senator Albert J. Beveridge and urging his re-election were adopted. At Ft. Wayne, when a delegate offered a resolution endorsing Senator Beveridge for the presidency the convention went wild with enthusiasm and the motion went through like a tornado.

## JOKER IS FOUND IN SENATE RULES

AFTER VIGILANT SEARCH ON PART OF MEMBERS.

Rule Committee's "Trag"—Can Advance Any Bill at Any Time, Holding Others Back.

MEN BEHIND THE GUNS

Frankfort, Ky., Feb. 3.—Although it required fully four weeks of vigilant search on the part of members of the general assembly, who do not live in cities and who have not lived up with the whiskey crowd in the senate and house, to discover the "joker" in the senate rules, the discovery has been made in rule 50, paragraph 2, as follows:

"The rules committee is further authorized and shall have the right at any time, to call from any other committee or committees any bill or resolution in their hands and have the same advanced to the reading to which the same may be entitled, and a report or expression of opinion from the committee on rules on any such bill, resolution or measure may be and shall be in lieu of the report of any committee having had under consideration any such bill, resolution or measure."

The senate, therefore, is absolutely in the hands of the senate committee on rules, for the committee has the power to take from any other committee a bill that has been referred to it and report the bill favorably or unfavorably, or without expression. If reported unfavorably, then as paragraph 9 of rule 43:

"When a bill or resolution has been reported to the senate by a committee having same under consideration with an expression of opinion that the same should not pass, then in that event the same shall not be advanced to its third reading unless done by a vote of two-thirds of the members elected to the senate."

Thus it requires a two-thirds vote of the senate, and if taken out of the hands of the committee and not reported, then such action postpones indefinitely further consideration of the bill.

The following were the makers of the senate rules and the men who changed the senate committee:

Conn. Anna, president pro tem of senate.

Thomas A. Combs, chairman of Democratic caucus.

The members of the committee on rules are:  
Conn. Linn, chairman, Murray, Thomas A. Combs, Lexington, Mark Ryan, Louisville, L. W. Arnold, Covington, G. T. Wyatt, Logan county, Herman Newcomb, Louisville, J. P. Bosworth, Middleboro.

### WOULD DROP DYNAMITE ON TOWN OF MANAGUA.

New Orleans, La., Feb. 3.—The destruction of Managua with 50 pounds of nitro-glycerine dropped from a dirigible will win the Nicaraguan war for the revolutionists, unless the plans of Harry McGill, the Ohio aviator, miscarry. McGill, who announced today that all arrangements are satisfactorily completed between himself and Estrada for making the McGill "aero quad," tells how it will happen. "It will be a simple matter," said he, "according to my calculations I know I can carry 50 pounds extra weight with ease, dropping it from the height of 1,000 feet and setting away without being detected. I will do it at night and I don't doubt that it will be the easiest money I have ever earned."

### Attention Hardware Dealers.

On Thursday, February 10 1910, at 11 a. m., we will offer for sale at public outcry our entire stock of hardware now in stock at our stores 303 and 307 Broadway, Paducah, Ky. The stock consists of about ten thousand dollars' worth of wagon hardware, mantels and mill supplies besides a considerable assortment of general hardware. Terms of sale 3 and 6 months, to be settled by notes with approved security and the notes to bear interest at 6 per cent per annum until paid. Stock to be sold as a whole and is open to inspection of all at any time prior to date of sale.

Stock to be removed from the building before February 15 1910. Remember the date February 10 1910.

## MISSION SPIRIT STIRS LAYMEN

HEAR PRESENTATION OF FOREIGN PROBLEM.

Some Action Is Expected—What Increase in the Offerings Will Be Pledged Important Question.

### THE CONVENTION IS OPENED

Louisville, Feb. 3.—Stirred by the mission spirit that has accumulated here for weeks and was augmented by the big interdenominational banquet at the Galt House, delegates from Protestant churches in the city and state and southern Indiana, assembled in the Warren Memorial Presbyterian church to consider questions involving the obligation of the churches here in the laymen's movement to evangelize the world in this generation.

The last annual Protestant church budget in Louisville was \$470,326 27. Of this amount \$168,475 88 was for home work and only \$23,431.44 for foreign work, or only 74 cents per capita a year to carry the gospel to other countries. Shall the Protestant churches of Louisville, with their 45,000 communicants, pledge themselves, through their delegates to give, during the coming year, twice what they gave last year? Shall they, at least, increase their offerings for foreign missions by 50 or 75 per cent?

### Questions That Are Presented.

These are questions which are being thought of today by church workers while they listen to earnest and impressive presentations of the needs of the foreign fields by noted missionaries from many sections of the world, and modern methods for meeting them, and which they will consider at 6 o'clock this afternoon, when the local co-operating committee meets at supper with national leaders and determines upon the for-

### PROVEN ECZEMA CURE

For several years we have announced, with our recommendation, that we had found a positive cure for eczema; a simple skin wash, oil of wintergreen compounded with other healing ingredients.

Yet we know there are people right in this town who have eczema, and still have never tried this remedy.

We have, therefore, arranged with the D. D. D. Laboratories of Chicago for a special offer of a trial bottle at 25 cents instead of the \$1.00 bottle as regularly sold. Be sure of the correct name: D. D. D. Prescription.

We offer this trial bottle with our recommendation and assurance that just as soon as the patient washes his itching skin, this mild liquid will take the itch away instantly.

### Survey of the Field.

The morning's session was devoted for a survey of the world-field by experienced workers in the orient, several of whom arrived in the city from Cincinnati, where the last convention was held, and who were present at the banquet at the Galt House. Among them were the Rev. J. T. McNaughton, Tuskey; the Rev. J. C. Robbins, the Philippines; Dr. J. L. Deering, Japan; the Rev. M. D. Bunk, China; J. T. Headland, Pekin.

What would be done at the opening session of the convention was appropriately summed up in the words of Bishop Charles E. Woodcock at the banquet. He said that men from the corners of the earth would crowd messages of a generation into 15 minutes each. He declared that the opportunity was an exceptional one for the churches of Louisville.

Following the continued applause after J. Campbell White's address, Bishop Woodcock said: "Don't feel because you have heard it, that you have done it." and urged all to attend the sessions of the convention.

Nearly a thousand delegates, representing many churches, had registered and others were expected.

Mr. White said at the banquet that the 74 cents could be increased to \$1.58 in 30 days, if the propaganda of the national campaign should be adopted here, and with these words

fresh in their minds, scores of the most aggressive church men are working for the success of the convention and its objects.

### Many Men Leave Their Business.

The first floor of the auditorium was comfortably filled at the morning session. The presence of only a few women indicated that it was essentially a laymen's convention. One churchman, who has been prominently identified here for years with important religious gatherings, said he had never seen so many business men give up their business during the forenoon to attend a missionary meeting. He stated that he regarded this as one of the best signs of a successful convention.

Large charts and maps illustrative of the work to be done in foreign fields are suspended in many places from the balcony of the church, and tracts and pamphlets are to be had on every hand. The charts and maps were used by speakers, who told of the needs of the mission fields and the opportunities and responsibilities of church members.

## HOUSE PASSES NEW CITY BILL

CITIES UNDER 200,000 CAN HAVE COMMISSION.

Now Goes to Senate for Conference. That Body Having Passed a Similar Measure.

### SOME OF BILL'S PROVISIONS

Springfield, Ill., Feb. 3.—The bill giving cities under 200,000 population the power to adopt the commission form of government was passed by the house by a vote of 87 to 11. The bill lacked the necessary two-thirds vote of the house, 102 votes, to be passed with the emergency clause and consequently the law will not go into effect until July 1.

The bill was passed with the clause which provides that an election of commissioners should be held within 90 days after the commission form of government has been adopted by a city, requires 70 per cent of the votes of an election to recall the commissioners and provides that if the measure is lost it cannot again be voted on for two years. The bill now goes to the senate for conference.

The senate has passed a bill with the house amendments, principal of which are the ones noted above. The vote on the bill was as follows:

Aye—Abbey, Adkins, Allison, Bardill, Black, Briscoe, Burnett, Burns, Bush, Butts, Campbell, Carter, Cermak, Chipfield, Cliffe, Daley, Donahue, Durfee, Espey, Esherton, Fahy, Finley, Flagg, Foster, Fulton, Galkin, Gorman, Grace, Gray, J. Scott, Shanahan, Shaw, F. W. Shepherd, Staynates, Stevenson, Terrill, Tipton, Tom, Troyer, Wheelan, G. P. Wilson, H. W. Wilson, Helinger, Zopf, Shurtliff.

Nays—Abrahams, Alschuler, Bickelmeier, Blair, Curran, Dillon, Duggan, Flannigan, Gieskowski, Glade, Griffon, Kleemann.

Absent or not voting—Apinadoc, Jogens, Brady, Brownbeck, Browne, Church, Clark, Corcoran, Crawford, Dewolf, English, Erby, Erickson, Fieldstack, Forst, Gillespie, Hilton, Hope, Herby, Hutsler, Ireland, Kallidy, Kowalski, Lane, Lederer, Lewis, Laggott, Logan, Marcy, McMackin, McNichols, E. Wilson, Wright, York.

The house also, by a vote of 126 yeas to no yeas, passed the employers' liability bill, urged by the labor organizations of the state, and which provides that a contract between an employer and a corporation or other employer in which the employee agrees not to sue the employer shall not be a bar to proceedings in the courts, for damages in the case of death or injury. The house decided not to meet again for business until Tuesday, February 15. There is no quorum of the senate here this week.

### DR. T. M. GRAVES PASSES AWAY.

His Death Occasioned Deep Sorrow in Many Murray Homes.

Murray, Ky., Feb. 3.—The news of the death of Dr. Thomas M. Graves Saturday afternoon, though not unexpected, brought sadness to the hearts of his wide circle of friends in Murray and in the county. Dr. Graves was the oldest physician in the county, having been in the practice since he was nineteen years old.

He was born in Bedford county, Tennessee, in 1824, making his age nearly 86 years. He moved to this county more than fifty years ago, and the county had no better citizen. His life was filled with goodness to his fellowman, and his charity work was unbounded. He was a member of the Presbyterian church and a Royal Arch Mason.

He is survived by his wife and six children, Albert, of Texas; Mrs. Taz

# Danderine

Grows Hair  
and we can  
PROVE IT!

DANDERINE is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to sprout all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth you desire.

A lady from St. Paul writes in substance, as follows:  
"When I began using Danderine my hair would not come to my shoulders and now it is away below my hips."  
Another from Newark, N. J.  
"I have been using Danderine regularly for some time and I have the most beautiful long and thick hair anyone would want to have."

NOW at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.

Danderine enjoys a greater sale than any other preparation regardless of kind or brand, and it has a much greater sale than all of the other hair preparations in the world combined.

Free To show how quickly Danderine acts, we will send a large sample free by return mail to anyone who sends this free coupon to the

After the funeral services at the home the body was laid to rest in the Dale graveyard, Sunday afternoon.

### Can You Beat It?

"Woman is very unreasonable," said a venerable New Hampshire justice of the peace. "I remember that my wife and I were talking over our affairs one day, and we agreed

that it had come to the point where we must both economize.

"Yes, my dear," I said to my wife, "we must both economize, both!"

"Very well, Henry," she said, with a tired air of submission, "you shave yourself, and I'll cut your hair."—"Everybody's."

Yes?

Customer—"Have you any single baskets?"

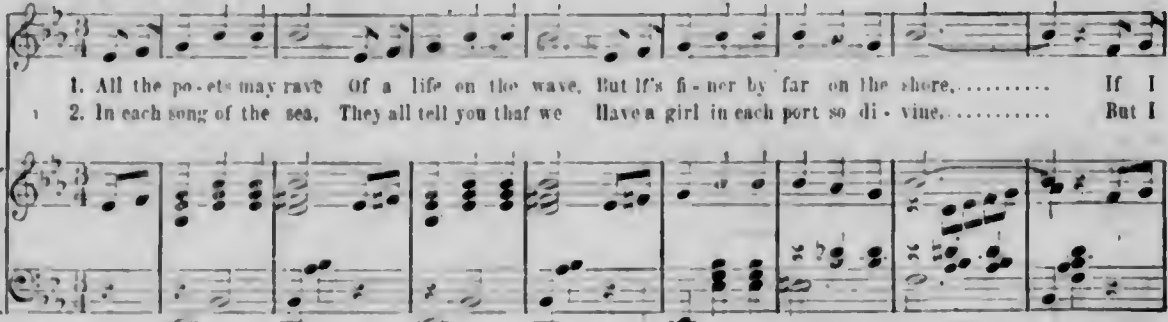

Clerk—"No; they're all married and have large families."

PETER PURYEAR,  
Notary Public.  
My commission expires January 10, 1912.

**Daily Thought.**  
The darkest shadows of life are those which a man himself makes when he stands in his own light.—Lord Avebury.

The state senate defeated the drugists bill, prohibiting the sale of 'dope.'

There is something even more cowardly than the killing of Ed Carmack in the efforts of his slayers to escape the consequences of it.

It was a groundhog case in the Second district. The shadow of W. O. Stanley continues to hover over the Pennyrile, more's the pity.

Shelton M. Saulley has purchased the Stanford Journal, and will assume the management as soon as the legislature adjourns. Mr. Saulley is one of the most capable newspaper men in the state and a genial gentleman. The Interior Journal falls into good hands. Mr. Saulley has been in Frankfort a number of years and is well equipped for his editorial duties by his knowledge of state affairs and wide acquaintance.

State Superintendent Crabbe has sent out an appeal to educators and publishers over the state for assistance in preventing the possible repeal of the new school law, which was enacted two years ago. This is the law, reorganizing the county boards and introducing modern features in the state educational system. There are few things this legislature could do more damaging to the commonwealth than the repeal of the law.

## REFORM THE ALMSHOUSE.

The new rules of the county sanitarium are fine; but if the present management has not enforced morality, prohibited clearing and abuse of inmates, compelled cleanliness and observed the behests of common humanity out there, what we need is not so much new rules as new management. If he has been doing these things, the new rules do him injustice. We know that Mrs. Caroline Hartlett Craze praised the building and condemned the administration of the almshouse. We know that recently, after considerable scandal was evoked, an employe was discharged, who was openly engaging in the most immoral practices out there. Meeting and passing resolutions and adopting rules, that a competent administration would observe as a matter of course, will not effect reform at the institution.

## KENTUCKY POLITICS

What effect the action of the Kentucky state senate, in referring the county unit bill to the committee, will have on the next general election, we can only guess; but it did bring out strongly some political differences of statewide importance. The bill was referred by the Republican lieutenant governor to the Kentucky state committee, as declared by the friends of the bill. The Democratic majority refused to sustain the lieutenant governor, and on appeal from the chair, took the bill away from that committee and submitted it to the committee on public morals, which is packed against the bill. When a committee reports unfavorably it requires a two-thirds

vote to get it before the senate for passage.

That is the end of the two county unit bills in the senate, but a careful perusal of Democratic state exchanges, disclose how seriously this question is taken in some sections. At Frankfort former Governor J. C. W. Heckman is editing a paper open by hostile to the Louisville leaders, who are in control of the legislature; at Cadiz General Lawrence is editing a Heckman paper; at Clinton the Gazette is on the same side; at Murray the same state of feeling exists, and throughout central and eastern Kentucky local Democratic papers are taking the Heckman end of the fight, disregarding state finances, the public school question, taxation and everything else, but the single issue of the county unit.

Thus are the lines being drawn for a fight for control of the next Democratic state convention with the county unit or prohibition of the issue between the factions. Heckman, and it may be, former Senator McCrory will have the county unit or the prohibition end of the argument and the leaders of the legislature the other side.

It makes little difference, perhaps, which wins. If the present bitterness grows as it has been growing, a breach will be formed that will be hard to heal between the nomination and the election. If the prohibitionists carry the convention, it hardly stands to reason that the liberal element of the party will loyally support the organization at the polls; and if the liberal element wins by methods that do not appeal to the fair play of the prohibitionists, loyalty will be at a low ebb in the defeated camp.

## STATE PRESS.

They Are Good Spenders.

If you have a state, district or county job of any kind, and want more salary, now is the time to go after it. The general assembly seems to be looking specially after the "increase of salaries" business.—Owensboro Inquirer.

## Popular at Fulton.

According to the statement of Frank Fisher, postmaster at Paducah and West Kentucky's most prominent Republican politician, Robert Beadles, of this city, will succeed his father, T. B. Beadles, as postmaster at Fulton, the appointment to be sent to the senate very soon by President Taft. It is needless to say that appointment of Mr. Beadles as postmaster here will meet with the instant approval of the hundreds of citizens here who have been so courteously and promptly accommodated at the local mail dispensary. Through long experience Mr. Beadles is eminently qualified for the important office and merits the appointment by his capability if from no other single reason.—Fulton Leader.

## Loyal Farmers' Union Men.

Our congressional delegates left Paducah last week for Washington, and will have made their return probably before these lines reach you. The good this will accomplish remains to be seen and felt later, although we are proud we had such men as Chairman Grady and Secretary Tapp to send on such an important mission as the one here referred to. In Chairman Grady we have the noblest and most loyal person or as loyal as any, to the cause that can be found anywhere in the state. He is a man of sound and broad views, while Brother Tapp is a practical farmer and a man who stands high in the estimation of the best people of Ballard, McCracken and Webster counties.—Liberty (F. W. La Center.)

## Mothers' Bill.

Among the many excellent bills before the legislature in whose passage women are interested is one especially vital to women who understand its import. It is not generally known that the Kentucky statutes still comprise the law giving the father of the child the right of guardianship over it, disregarding what seems to be the non-legal mind, an equal right of the mother. Not long ago, in Illinois, a mother stunk upon her child by accident, from whom she had been separated for 16 years by the working of a law similar to ours which gave the child upon divorce of the parents into the guardianship of the father, in spite of his obvious unfitness for such a charge.

Massachusetts secured a co-guardianship law, after a horrible tragedy, when a mother, driven insane by the threats of the father to sell the child away from her, as he had the legal right to do, killed herself and five children, and though no such tragedies have occurred in Kentucky to point the injustice of a law which discards the rights of the mother, it is well to guard against such a possibility by the passage of a co-guardianship law. Such a bill has been introduced into the legislature this year by the Woman Suffrage association.—Louisville Herald.

## THE PUBLIC FORUM.

Girl Whistles for Health.

"Don't whistle, please," begged the girl who prided herself on not having a cold, but confessed to a dislike for the penetrating sound that often came unbidden from her sister's lips. "But I like to whistle," responded the other girl, "and besides it

shows I am not a victim of that dreaded ailment, neurasthenia. Now, you couldn't for the life of you stand up straight and whistle a merry tune, I'll bet anything you cannot even get an initiation of a whistle from your lips."

And she couldn't. Both tried it and found that only the whistler was free from the symptoms of neurasthenia as given not long ago by a noted physician who said women who can stand erect, head held up and eyes closed and then whistle was perfectly normal so far as their nerves are concerned.

And the whistling girl went on to explain what an excellent physical exercise the annoying habit is.

"You learn to breathe properly when you whistle," she said, "and you acquire a control of the breath that nothing else except singing will give. You learn to breathe deeply, filling the very lowest sections of the lungs, and you learn the trick of nasal breathing, which is something American girls have not learned as thoroughly as they should."

"There is all the difference in the world in the way you breathe. Watch yourself some time when you have not been trying to follow a set of rules, and if you are not a proper breather you will notice that you are not drawing in the breath beyond the upper section of the lungs. Persons who lose their breath quickly when running or climbing steps will overcome this defect if they will practice whistling."—New York Herald.

## HITS CRIME WAVE

MAN RESPONSIBLE FOR ONE SHOOTING IS IDENTIFIED.

In "Mad Magician" Denison New York Police Believe They Have Caught Person.

New York Feb. 3.—Herbert J. Denison, a former inmate of an asylum, and styled by the police, the "mad magician," was positively identified by John Fredericks, a young pressman, as the boarded man who shot him in the Bronx on January 8.

The shooting occurred within two miles of the place where Robert Leans and Arthur Shibley, 6-year-old boys, were fatally shot four days later. Denison is also held as a suspect for these crimes, and his identification by Fredericks is the first definite step toward the solution of the shootings.

Fredericks had been in a hospital until Saturday, with bullet wounds in his shoulder, right arm and left leg. He visited the police prison, where he picked Denison out of a line of 18 men as his assailant.

The same caliber bullets that wounded Fredericks killed the two boys, and the police are making further investigations, hoping to connect the prisoner with all three crimes.

Officers of the Ladies' Label League were installed yesterday afternoon at a successful meeting held in the Central Labor hall. A large attendance was present and the league has every indication of being a success. The league will meet the first Wednesday afternoon at 2:30 o'clock of every month, and the third Friday night of each month. The charter has not arrived but it is expected this month, and then the league will begin active work.

The officers installed yesterday were: Mrs. George Watts, president; Mrs. John McGarrigal, vice president; Mrs. Nora Jordan, recording secretary; Mrs. Howard, financial keeper of records; Mrs. Clifford Young, warden; Mrs. C. C. Hayman, treasurer; Mrs. Charles Root, Mrs. Lena Hullin and Mrs. John McGarrigal, trustees.

## STANLEY GETS FIFTH TERM

Democratic Congressman Re-Elected In Second Kentucky District.

Owensboro, Ky., Feb. 3.—In the Democratic congressional primary election for the Second Kentucky district, Hon. A. O. Stanley of Henderson, was renominated for the fifth time by an overwhelming majority, defeating Lavega Clements of Owensboro and G. C. Gliven of Hopkins county. The district is Democratic. Mr. Stanley has served eight years in the lower house of congress. He carried six out of the eight counties.

## 500 Americans Voted to Resign.

El Paso, Tex., Feb. 3.—According to figures given by members of the Order of Railway Conductors, 99 1/2 per cent of the American conductors and 89 per cent of the engineers and dispatchers employed on the National Railways of Mexico, have voted to resign in a body. The resignations will be placed in the hands of a committee representing the Americans to take effect February 17. Five hundred Americans are affected.

## IN SOCIAL CIRCLES

Pretty Euchre Club Party.

Miss Elizabeth Sebree, 419 Monroe street, was the hostess to the Euchre club on Wednesday afternoon. It was a charmingly planned party with the violet motif attractively emphasized. Luncheon of violets were arranged about the rooms and the tallies were hand-painted clusters of violets. A prettily appointed violet luncheon was served at the close of the game. The violet art napkins were used and the mints and other luncheon features carried out the violet plan.

Miss Fred Paxton captured the club prize, a beautiful Mexican drawn work handkerchief. The lone hand prize, a pretty violet brooch, went to Miss Alma Kopf.

The guest list was limited to club members with two visitors playing substitutes and was: Mrs. Charles DeWorthen; Miss Anna Kopf, Corinne Whitstead, Lillie Mae McGilchrist, Alice Cahill, Nell Hendrick, Gertrude Scott, Fred Paxton, Hazel McCandless, Elizabeth Boswell, Mable McNichols, Nella Hatfield, Rosebud Hobson.

### Special Song Service.

The second recital of the series of song services will be given at Temple Friday evening at 7:30 o'clock, to which the public is cordially invited. It will consist of well selected sacred music of Dudley Buck and rendered by an excellent double quartet.

Mrs. Mayme Dyfuss Greenbaum is choir leader and Mrs. Frank Hurns organist. Program is as follows:

Antem, "Arise! Shine! For Thy Sight is Come"—Double quartet; Sopranos, Mrs. Lela W. Lewis, Miss Anne Hirsch; altos, Mrs. M. D. Greenbaum, Mrs. W. C. Gray; tenors, Messrs. Slavey Hall, Frank Hurns; basses, Messrs. Robert Scott, Robert MacMillan.

Solo, "Judge Me, O God"—Mr. MacMillan.

Antem, "He Shall Come Down Like Rain"—Double quartet.

Duet, "Acquaint Thyself"—Mrs. Lewis, Mr. Hall.

Solo (selected)—Mrs. Greenbaum.

Antem, "God of Abraham"—Double quartet.

### D. A. R. Washington Day.

## THE REAL FACTS ABOUT MRS. FINCHER

As Told By Herself, in a Letter Lately Received, Giving Full Particulars About Her Case.

Peavy, Ala.—"I had been troubled a little for about 7 years," writes Mrs. Lullie Fincher, of this place, "but was not taken down, until March, 1907, when I went to bed and had to have a doctor."

"He did all he could for me, but I got no better. I hurt all over, even to my arms, so badly I could not rest. I had pains in my sides, back, bowels, shoulders and chest. I can't tell how I did suffer."

"At last I began to take Cardui, and I hadn't taken but half a bottle, until I began to improve."

"I continued to take it, until I had taken four bottles, and now I am in very good health and able to do all my housework."

You may wonder why this medicine is so successful in curing sick women, after other medicines have failed. The answer is not far to seek.

Cardui is successful, because it is composed of ingredients that act specifically on the woman's constitution. It is not a cure-all. It is a medicine for women and only for women.

Its success is due to its merit. Try it.

## HIGHEST FAILURE.

Fisk & Robinson's Liabilities Above \$7,000,000.

New York, Feb. 3.—Fisk & Robinson, bond dealers and members of the New York Stock Exchange, failed for \$7,000,000. An involuntary petition in bankruptcy was filed by creditors in the United States district court this afternoon and receiver Winthrop was appointed receiver, with a bond of \$50,000. Shrinkage in the value of railroad bonds held by the firm caused the failure. The failure is one of the largest since the panic of 1907, not so much as liabilities are concerned, but in view of the importance of the firm, which has branches in Chicago, Boston and Worcester, Mass.

## SSS RIDES THE SYSTEM OF CATARRH

Catarrh comes as a result of impurities and morbid matter in the circulation, and is a disease that only attacks mucous membrane. The entire inner portion of the body is lined with a delicate skin or covering of soft, sensitive flesh. Thousands of tiny blood vessels are interlaced throughout this mucous surface, and it is through these that the inner membrane receives its nourishment and is kept in healthful condition. When, however, the blood becomes infected with catarrhal impurities the tissues become diseased and Catarrh gets a foothold in the system. The early stages of Catarrh are characterized by such symptoms as a tight, stuffy feeling in the head, watery eyes, buzzing noises in the ears, with partial deafness and often difficult breathing and chronic hoarseness. These are merely symptoms, and while sprays, inhalations and other local treatment may temporarily relieve them, Catarrh cannot be cured until the blood is purified of the exciting cause. S.S.S. cures Catarrh by cleansing the blood of all impure catarrhal matter. It goes down into the circulation and attacks the disease at its head, and removes every particle of the catarrhal impurity. Then the mucous linings are all supplied with fresh, pure blood, and allowed to heal, instead of being kept in a constant state of irritation by the catarrhal matter. Special book on Catarrh and any medical advice free.

## BOND ISSUE

LIMITED TO HALF MILLION, SAYS ATTORNEY GENERAL

Was Requested by Executive So That Legislature Might Have Information.

Frankfort, Ky., Feb. 3.—Although the debt of the state of Kentucky is now much greater than \$500,000, Attorney General James Breathitt gave Governor Willson his written opinion in which he states that the general assembly has not the constitutional power to issue any greater amount of bonds than \$500,000 or create any greater debt although the debt may be for the purpose of paying a larger deficit. Attorney General Breathitt, however, says that under Section 49 of the constitution that the general assembly has the power to create a bonded indebtedness of \$500,000.

The opinion of Attorney General Breathitt was given to Governor Willson in answer to an inquiry as to whether or not the legislature could create a \$500,000 debt. In reply to this inquiry Attorney General Breathitt quotes sections 49 and 50 of the constitution and hands down the following opinion which Governor Willson regards very important:

Gen. Breathitt's Say.

"It is apparent, from a careful examination of the auditor's reports for several years back, that the expenses of running the state government, maintaining its charities, paying its normal school appropriations, paying for the new capitol, and other extraordinary and usual expenses, that the revenues of the state derived from all sources have proven to be and are now insufficient to pay the obligations and undertakings of the state. It may be conceded that there is now a deficit in the revenues of the state amounting to more than a million dollars. This large deficit has been occasioned by the failure of the revenue to be sufficient to meet the expenses and thereby create-

ing a deficit in the revenues.

"It will be seen that section 49 of the constitution, supra, which gives the general assembly the power and authority to contract debts to meet casual deficits or failures in the revenue, contemplates the state of case existing at present in the revenues of the state of Kentucky.

Bond Issue Limited.

"Section 49 should be considered and construed according to the plain meaning of the language used, as there is no ambiguity, and the language taken in its simple and every day meaning seems to limit the power of the state to the issuing of five hundred thousand dollars of its bonds for the purpose of paying accidental or unexpected deficits, caused by a failure in the revenues, and that although this failure of revenues may have resulted in a deficit amounting to over a million of dollars of the legislature, when it creates a debt of five hundred thousand dollars for the purpose of paying the deficit, is exhausted. In other words, no part of Section 50, applies to the conditions now existing in the revenues of the state of Kentucky, and the only authority for creating a debt under existing conditions, without a submission to the people, is to be found in Section 49, and to this extent I think the authority of the general assembly is ample and sufficient and that it can legally contract an indebtedness to the extent of five hundred thousand dollars for the purpose of paying as much as may be of the deficit in the state revenues.

Mr. E. A. Kelley, Belvidere, Ill., writes us: "I am an ex-engineer with 22 years active service to my credit. About three years ago my kidneys were affected so that I had to give up my engine. First I was troubled with severe aching pain over the hips. Then followed inflammation of the bladder, and specks appeared before my eyes. A sample of Foley's Kidney Pills that I tried, so benefited me that I bought more. I continued to take them until now I can safely testify they have made me a sound and well man."—Gilbert's Drug Store.

KENTUCKY JOINS VIRGINIA.

Wants Money From Uncle Sam for Ceded Lands.

Frankfort, Ky., Feb. 2.—Stirred by the suggestion from a Virginia state official, Kentucky probably will join its vote to that of Virginia in demanding reimbursement from the federal government for the land ceded for the creation of the states of Ohio, Indiana, Illinois, Wisconsin and a part of Minnesota. It is claimed that the condition of the ceded land was put to local purposes instead of being "for the use and benefit of the other states of the federation," as was originally intended.

Kentucky was a part of the Old Dominion at the time, as was West Virginia. The information reaching here is that each of the states would be entitled to about one-sixth of the amount claimed by Virginia, or \$2,000,000.

SORE LUNGS AND RAW LUNGS.

Most people know the feeling, and the miserable state of ill health it indicates. All people should know that Foley's Honey and Tar, the greatest throat and lung remedy, will quickly cure the soreness and cough and restore a normal condition. Ask for Foley's Honey and Tar.—Gilbert's Drug Store.

Paris has a dozen or so old soldiers who draw pensions that come to them from the great Napoleon. In his will he left several million francs to his comrades in arms, but in default of heirs of the grand army, this money was put in the treasury, and today the income is given to old soldiers in French territory.

## HENDRICK TALKS OF PARIS SEWERS

EXPLAINS WHY HAVOC HAS BEEN SO WIDESPREAD.

Magnificent System of Conduits—Water Once Entering Will Flow in Every Direction.

THE DAMAGE IS \$100,000,000

Mr. Calvin W. Hendrick, chief engineer to the sewerage commission, of the city of Baltimore, says the Baltimore American, has been through the sewers or conduits of Paris. He inspected the two years ago while in Europe, gathering information to aid him in his work on the great undertaking in Baltimore. He said that the conduits in Paris are among the great showplaces in that city. They are open to visitors two days in each week, and guides and interpreters go through them with large delegations of men and women.

Mr. Hendrick was allowed the privilege of making a special inspection of the conduits, as he was not in Paris on one of the public visiting days. Engineers and interpreters were detailed to accompany him, and he thereby got a better idea of the great conduits than visitors generally are enabled to gather from their hurried inspections. Speaking of the conduits and the effect of the flood on the city of Paris, Mr. Hendrick said:

"There is probably no city in existence that would feel an inundation of this kind more than Paris, on account of having resorted to underground construction to the extent she has, and also on account of her topography, a large territory adjacent to the Seine being comparatively level. These two conditions make an overflow far-reaching.

"The engineers of Paris are ahead of any other city in providing underground passages for their sewers, electrical conduits and pipes of all kinds. This has been accomplished by building large subways in connection with the sewer construction, the sewers being in the invert, with offset passages on either side, over which pipes are fastened on brackets, enabling the workmen to inspect the pipes at any time without having to excavate the streets. These extend for miles and miles in every direction, are lighted by electricity and have a car spanning the sewer in the invert, some of which are provided with seats for the visitors to ride in. These, together with the passenger subways, make a perfect labyrinth of underground passages on very flat grades. The water once entering will flow in every direction, and as the water of the Seine is now in some cases above the banks of the river, these conduits are under pressure in the opposite direction from the natural flow, forcing the water of the river and the flow of the sewage out through various openings into the streets, making a great cesspool of the city.

"The Seine would never impress one as being capable of creating such havoc. To us in this country it would be a small river, only a few hundred feet wide. At the time of my visit it was a gay avenue of pleasure, far below the street surface, spanned by the most beautiful bridges in the world, with a greenward and lines of magnificent trees. It was, indeed, a beautiful sight to look upon.

"This calamity comes in the same class as a great conflagration or earthquake, a convulsion of the elements that could not be provided for, and has to be met in the best way that human ingenuity can meet conditions of this kind. From all accounts the French people seem to be rising to the emergency in a heroic manner, and I feel sure the sympathy of the whole world is with them.

"The results will probably be appalling, not only to health, but to property. As the various underground passages are built adjacent to large buildings, there can be only one result—undermining. It is impossible to calculate the damage that will eventually come from the flooding, as the after-effects will be far-reaching, such as future settling of buildings, injury to waterworks, gas plants, steam plants, private and public buildings, street railways, underground railways, parks, roadways, interruption of business and epidemic. I would say that \$200,000,000 was a very conservative estimate of the loss to France; it will more likely reach \$400,000,000."

NEGRO FUGITIVE IS CAUGHT.

Charged With Killing a White Man Near Providence.

Hopkinsville, Ky., Feb. 2.—Brown Caudle, a negro, who killed a white man near Providence, Ky., in December, was captured here this morning and will be taken to Dixon tonight. Caudle admits the killing, but says it was a question of who could shoot first. He professes to be afraid of mob violence, and an effort will probably be made by his attorney to have him carried elsewhere than Dixon for safe keeping.

# Welcome Words To Women

If, you are an intelligent thinking woman, in need of relief from weakness, nervousness, pain and suffering, then it means much to you that there is one tried and true honest square-deal medicine OF KNOWN COMPOSITION, sold by druggists for the cure of woman's ills. The makers of

## Dr. Pierce's Favorite Prescription

for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible endorsement of the leading and standard authorities of the several schools of practice, are perfectly willing, and in fact, are only too glad to print, as they do, the formula, or list of ingredients, of which it is composed, in plain English, on every bottle-wrapper. Is this not a significant fact worthy of careful consideration?

Women use Dr. Pierce's Favorite Prescription in preference to all other advocated medicines sold by druggists for their peculiar weaknesses and ailments because it is

THE ONE REMEDY which contains no alcohol or habit-forming drugs, is not anything like advertised secret compounds or patent medicines.

THE ONE REMEDY for women devised by a regularly graduated physician of vast experience in woman's ailments and carefully adapted to her delicate organism.

THE ONE REMEDY good enough that its makers are not afraid to print its every ingredient on its outside bottle-wrapper.

It's foolish—often dangerous to be over-persuaded into accepting a secret nostrum in place of this time-proven medicine OF KNOWN COMPOSITION. World's Dispensary Medical Association, Buffalo, N. Y.

## ILLINOIS HOUSE PASSES PRIMARY

VOTE FOLLOWED HOT DEBATE OF OVER TWO HOURS.

Vote Was 100 to 39 and Most of the Shortest Republicans Voted Against Passage.

HAMILTON-STAVAMTES MEASURE

Springfield, Ill., Feb. 3.—After a hot debate lasting over two hours the house by a vote of 100 to 39, most of the Shortest Republicans voting nay, passed the Hamilton-Stavamtes direct primary election bill which had been reported out by the majority of the special committee of 15 appointed to draft a primary bill. Brown, of LaSalle, the Democratic leader, spoke and voted against the bill, declaring that the provision which gives the senatorial committee the power to determine how many candidates for the lower house shall be nominated by the party would cause the supreme court to decide the bill to be unconstitutional.

Chilperfield, Republican, of Fulton county, read an opinion from ex-Mayor Dunne, of Chicago, in which he said he believed the act would be declared invalid by the supreme court.

Hamilton and others defended the bill. After the bill had been declared passed Hamilton moved to reconsider the vote by which the bill was passed. This motion was tabled.

The vote by which the primary bill passed was as follows: For the bill: Republicans—Abney, Amador, Hardill, Black, Barrett, Batts, Campbell, Church, Cliffe, Duffee, Flager, Eaton, Gillespie, Gray, Hagan, Hamilton, Pollock, Hall, Butler, Kerlock, King, Kirkpatrick, Kowalski, Lawrence, Lewis, Lizzetti, Logan, Lyon, MacLean, Miller, Montellus, Parker, Perkins, Purvis, Price, Reynolds, Richter, Rigney, Robinson, Seelman, P. AVOID HARSH DRUGS.

Many Cathartics Tend to Cause Injury to the Bowels.

If you are subject to constipation you should avoid strong drugs and cathartics. They only give temporary relief and their reaction is harmful and sometimes more annoying than constipation. They in no way effect a cure and their tendency is to weaken the already weak organs with which they come in contact.

We honestly believe that we have the best constipation treatment ever devised. Our faith in it is so strong that we sell it on the positive guarantee that it shall not cost the user a cent if it does not give entire satisfaction and completely remedy constipation. This preparation is called Rexall's Cathartics. These are prompt, soothing and most effective in action. They are made of a recent chemical discovery. Their principal ingredient is odorless, tasteless and colorless. Combined with other well-known ingredients, long established for their usefulness in the treatment of constipation, it forms a tablet which is eaten just like candy. They may be taken at any time, either day or night, without fear of their causing any inconvenience, whatever. They do not gripe, purge, nor cause nausea. They act without causing any pain or excessive looseness of the bowels. They are ideal for children, weak, delicate persons and aged people as well as for the most hearty person.

They come in two size packages, 12 tablets 10 cents, 26 tablets 25 cents. Remember you can obtain them only at our store.—The Rexall Store, W. B. McPherson, Fourth and Broadway.

\$100,000 for Cherry.

Springfield, Feb. 2.—After the committee direct primary bill passed the house by a vote of 100 to 39, the commission form of municipal government bill ran a hot gamut of amendments and was advanced to final reading. The house passed the bill, donating \$100,000 to the Cherry relief fund.

Obnoxious Provisions.

Springfield, Ill., Feb. 2.—With Speaker Shurtliff's obnoxious provision that the commissioners shall be elected not less than 90 days after a city adopts the commission form of government retained and with Chilperfield's amendment offered fixing the percentage for recall at 75, which makes it virtually prohibitory, and with another amendment tacked on that when the commission form of government has been lost in a city it can't be voted on for two years, the commission form of government amendment was advanced to third reading by the house, and will be voted on today, in all probability, and passed.

A SAFEGUARD TO CHILDREN.

"Our two children of six and eight years have been since infancy subjected to colds and croup. About three years ago I started to use Foley's Honey and Tar, and it has never failed to prevent and cure those troubles. It is the only medicine I can get the children to take without a row." The above from W. C. Orntsen, Green Bay, Wis., duplicates the experience of thousands of other users of Foley's Honey and Tar.—Gilbert's Drug Store.

Damascus of Marvellous View.

The view of Damascus from the mountain where Mohammed made his great renunciation is one of the marvellous views of the world. Again and again I deserted the mosques, the bazars, the marble bath, the courts of the fountains, the shadowy khans and the gardens by the streams, for that bare height on which Abraham is said to have had the unity of God revealed to him.—Century.

DEAD MAN WAS JOKER. Bequeathed Property Which Was Found Not to Exist.

Tacoma, Wash., Feb. 3.—"Dead men tell no tales," but that they sometimes play practical jokes is attested by Mr. and Mrs. E. H. Jones, of Portland, Me., who have arrived here after a fruitless trip to Tacoma, Wash., to claim a bequest of real estate made to Mrs. Jones, in her brother's will. They could find no trace of the property described.

Mrs. Jones has recalled that her brother, who was William Trutham, was a great practical joker. He died last June, leaving his brother and two sisters parents of land in which were several houses. Mrs. Jones' brother was bequeathed a tract in Florida and her sister a half section in Texas.

The will which was not opened until Christmas, directed the legatee to claim their lands without delay. Mr. and Mrs. Jones are waiting to hear from the "beneficiaries" who have gone south to investigate the bequests.

HOUSEHOLD REMEDIES

which have stood the test of time deserve a place in the medicine chest of every family. Mothers are today administering to their children the remedies their grandmothers used. For thirty years, Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been curing the women of this country from the worst form of female ills, and merit alone could have stood such a test of time and won such an enviable record.

BOYCOTT ON MUSTACHES.

University of Chicago Co-eds Will Not Marry Whiskered Men.

Chicago, Feb. 3.—A boycott against mustaches has been declared by the girl students of the University of Chicago, and several residents of Descher Hall, a woman's dormitory, where the agitation is strongest, consented yesterday to denounce the various forms of disfigurement that await those who ignore the rule.

The girls are to be real polite about it—too polite to tell a man to his face why he is snubbed. They act, but don't talk about it.

They have given orders to make it admit no person—they don't refer to him as a man—with a mustache. The style is to leave him standing in the vestibule admiring the architecture.

No co-ed of Descher Hall may become engaged to a bowdlered man. Any resident of Descher Hall who

forgets himself and lifts the boycott is to be brought before a trial board and the proper penalty meted out to her.

## Do You Ever Examine the Companies Behind Your Fire Insurance Companies?

You may not believe it, but it is not an uncommon thing for some one to suffer a fire loss and when they come to adjust it find the company carrying their insurance is a weak proposition and only able to pay about half the loss. You fully investigate a bank before you deposit money with it, and it behooves you to fully investigate your insurance companies. We court investigations of our companies, and guarantee the best line of strong financial institutions you will find anywhere.

#### Insuring His Homely.

A shrewd old Vermont farmer came  
into a lawyer's office the other day,  
and proceeded to relate the circum-  
stances in a matter about which he  
thought it would be profitable to "go  
to law."  
"You think I've got a good case?"  
he finally asked.  
"Very good, indeed!" the lawyer  
assured him. "You should certainly  
bring suit."  
"What would your fee be for the  
whole thing?" the old farmer asked.  
"Fifty dollars," was the prompt  
response.  
The client pulled out an old wallet,  
extracted a roll of bills, and counted  
out fifty dollars.  
"Now," he said, "you've got all  
you would get out of this case; now  
how, so please you tell me honestly,  
just what you think of my chances of  
winning a suit?"—The Green  
Flag.

## Taft Approves REVISED PROGRAM

MEASURES HE WANTS CONGRESS  
TO ENACT.

"Insurgents" in Line to Help Push  
Some of the Measures, and War  
Will Not Interfere.

#### WHAT THE BILLS PROVIDE.

Washington, Feb. 3.—The admin-  
istration program, revised by the lead-  
ers of the senate and house and  
given the stamp of white house ap-  
proval, comprises the following leg-  
islation:

Statehood for Arizona and New  
Mexico in the form of a new senate  
bill, which provides for the ratifica-  
tion by congress of the constitution  
of the new states after the approval  
by the president.

Postal savings banks, with safe-  
guards against funds being transfer-  
red from the sections where they are  
originally deposited to money cen-  
ters.

Authorizing the president to with-  
draw from every public lands desired  
for conservation purposes and for  
classification.

Federal incorporation, open to vol-  
untary application of concerns en-  
gaged in interstate business, and will-  
ing to subscribe to the federal regu-  
lation.

Creating a court of commerce and  
naming the interstate commerce  
act.

Creating a legislative council for  
Alaska.

All the measures are designated to  
be enacted if the influence of Taft  
and the leaders in charge of the ma-  
jority of the senate and house are  
powerful enough to carry the pro-  
gram through. There is no indication  
of a division of Republicans along  
"insurgent" and "regular" lines, al-  
though individuals in both factions  
may oppose some features of the  
bills.

Later other measures may be added  
which are now deemed secondary.  
Taft is inclined to come out strongly  
for the ship subsidy, and may urge a  
bill providing for certificates of in-  
debtedness to the amount of \$30,000  
and to raise money for reclamation  
work.

The Republican members of the  
senate committee on finance had a  
meeting today in advance of the reg-  
ular session. Aldrich talked plainly  
about the party situation by reason  
of the opposition to certain platform  
pledges, endorsed unconditionally by  
Taft since he has assumed the presi-  
dency.

## 36,000,000 EGGS

IN THE COLD STORAGE NOW IN  
JERSEY CITY.

Alleged Conspiracy to Raise the  
Price of Poultry and Produce  
Charged.

New York, Feb. 3.—There are 36-  
000,000 eggs in one cold storage  
warehouse in Jersey City, according  
to information given to the grand  
jury in the investigation of packing  
and other concerns maintaining ex-  
tensive warehouses on the New Jer-  
sey side of the Hudson. The eggs  
have been there since last March. It  
was learned, with 100,000 pounds of  
poultry stored since last April.

The managers of the Union Ter-  
minal Cold Storage company and offi-  
cers of other refrigerating companies  
are summoned before the grand jury  
Friday.

If a conspiracy to raise prices is  
shown, indictments are likely to be  
returned against those responsible  
for holding meat, eggs and other  
foodstuffs in storage.

#### Young Men in the Commons.

In connection with the question  
which has arisen as to who is the  
outrageous candidate at the present  
election, it may be recalled that in  
1613 there were no fewer than forty  
gentlemen not more than 40, and  
some not exceeding 16, who had  
seats in the house of commons. Un-  
der his "predecessors" remarks  
that the poet Waller, among others,  
sat in parliament (1622) before he  
was 17 years of age. A statute of  
William III makes void the election  
of any person who is not 21 years of  
age, but members under age have  
been occasionally admitted notwith-  
standing the provisions of this act.  
Charles James Fox was returned and  
sat at the age of 19, but Chesterfield  
under similar circumstances, received  
from the ministry of the day, whom  
he had attacked, a hint that he must  
withdraw.—Westminster Gazette.

One is not necessarily en route to  
glory because he has turned his  
back on other slanders.

## BIG INCREASE IN FARM PRODUCTS

PRESENT PRODUCTION WILL BE  
DOUBLED.

Scientific Methods Used—People of  
Kansas Not Worried About the  
High Cost of Living.

#### WILL CHARGE AS THEY PLEASE

Chicago, Feb. 3.—A doubling of  
the present production of farm  
products is in sight, according to Prof.  
H. C. Huffman, of Worland, Wyo., who  
is a pioneer in the science of seed  
breeding.

"We already have practically  
doubled the yield of corn by selec-  
tion and plant breeding," said Prof.  
Huffman yesterday. "But we need not  
stop with corn as we can deal with  
all other crops in a similar way. The  
reason that this has not been done  
earlier is that plant breeding has  
been utilized heretofore mainly for  
the production of curiosities. Men  
who brought out anything new were  
called 'wizards.' Few saw any prac-  
tical value in what was being done.  
Much was accomplished in an esthet-  
ic way with reference to improve-  
ments of flowers, but the great farm  
crops were neglected.

"As Mark Twain said in 'Pudden-  
head Wilson': 'Training is every-  
thing. The peach was once a bitter  
almond and cauliflower is nothing  
but cabbage with a college educa-  
tion.' Plant breeding supplies this  
'college education' to the pebbles of  
the vegetable world, and there-  
fore by increasing crop yields, prom-  
ises more than anything else with  
reference to a growth of the world's  
permanent wealth."

#### Kansas Farmers Happy.

Chicago, Feb. 3.—"The cost of  
living, is a secondary consideration  
to the people of Kansas," said For-  
ester Dwight Coburn, secretary of the  
Kansas state board of agriculture,  
yesterday.

"Guess we'll have to plead guilty  
to the charge of doing pretty well,"  
said Mr. Coburn. "But I don't see  
that the farmer is responsible for the  
high prices on necessities. I know  
if working early and late makes him  
deserve the prices he gets for his  
products that he deserves them, and  
if you are willing to pay 60 cents for  
corn he would be a chump to sell it  
for 30 cents.

"There must be some blame some-  
where for the high cost of living.  
But the farmer has never set the  
price on one of his products. He  
brings his steers to market and takes  
what is offered him. If he don't do  
this he must take his cattle home  
again, and that means bankruptcy."

"Out our way we're not worrying  
about it. We ride around in auto-  
mobiles, and within the last week a  
farmer in the wheat belt paid \$7-  
000 for an alrship. But we're not  
crowding out the horses at that.  
Horses were never such good prop-  
erty nor so highly esteemed as at  
present."

#### GRAY HAIR BANISHED.

The old idea of using sage for  
darkening the hair is again coming  
in vogue. Our grandmothers used  
to make a "sage tea" and apply it  
to their hair. The tea made their  
hair soft and glossy and gradually  
restored the natural color. One ob-  
jection to using such a preparation  
was the trouble of making it, espe-  
cially as it had to be made every two  
or three days on account of it sour-  
ing quickly. This objection has been  
overcome and by asking almost any  
first-class druggist for Wyeth's Sage  
and Sulphur the public can get a  
superior preparation of sage, with  
the admixture of sulphur, another  
valuable remedy for hair and scalp  
troubles. Daily use of this prepara-  
tion will not only quickly restore  
the color of the hair but will also  
stop the hair from falling out and  
make it grow. It is sold by all drug-  
gists for 50c and \$1.00 a bottle, or  
is sent direct by the Wyeth Chemical  
company, 74 Cortlandt St., New  
York City, upon receipt of price.  
For sale and recommended by W. J.  
Gilbert, special agent.

## UNIT BILL FIGHT SHIFTS TO HOUSE

HARSHLY GET TO A VOTE BY  
FIVE TWO WEEKS.

Dairymen Urge Enactment of Com-  
pulsory Tuberculin Test  
Law.

SUBSTITUTE TO BE PUSHER.

Frankfort, Ky., Feb. 8.—With the "knockouts" given the Vice and Watkins county unit local opinion bills in the senate, by their commitment to the tender mercies of the committee on religion and morals, where the "dry" advocates have every reason to believe they will slumber until the end of the session, attention is now attracted to the house, where the Waggoner bill, an identical measure, was favorably reported and received its first hearing.

While it is almost a foregone conclusion that the Waggoner bill will pass the lower branch by a safe margin, if it reaches a vote, the measure is assured of a thorny path before it reaches that stage, with every impediment that can be devised thrown in its way by the opponents of local option extension. As the matter stands now, there are at least fifty measures ahead of it on the house calendar, and those, by the right of priority, must be disposed of before the Waggoner bill may claim the right of way.

### To Fight for Substitute.

The opponents of the bill will make a strong effort to pass the substitute offered by the minority of the committee, which embraces the provisions of the model license law. The supporters of the substitute insist that what they have to offer is the only feasible measure before the general assembly in the interest of true temperance in that it places all drinking places under stringent regulations, while the present local option law, which is sought to be extended, has driven out the licensed saloon keeper only to let in the "blind tips" and "bootlegger."

It is hardly probable that the Waggoner bill or the minority substitute will come up for passage in the house before two weeks, and it may be longer than that, as the opposition to all anti-liquor legislation has grown from a mere handful in the lower branch two years ago to respectable proportions, with the ability to put up a strong fight.

Agreed on Tuberculin Test.

Everything has been smoothed over in the ranks of the Jersey

## BELL GETS IT

IN CHARGE OF TWO DEPART-  
MENTS OF ROAD.

Takes Over Duties of J. A. Baker,  
Who Resigned Position With  
Illinois Central.

Consolidation of the car department and the locomotive departments of the Illinois Central railroad under the head of superintendent of machinery will result in no successor being elected to succeed J. A. Baker, who resigned last week to accept a position with the Chicago Car Heating company. The railroad will return to the old plan, and R. W. Bell, who has been superintendent of the locomotive power, will be made superintendent of machinery, the position J. A. Baker held until several months ago. J. A. Borrowsdale, who was assistant to Mr. Baker, will remain as first assistant in the department. R. W. Bell has been with the railroad for many years, and his new position is a recognition of his ability.

### Coach Jumps Track.

Fast passenger train, No. 103, was delayed 50 minutes this morning in the south yards. While pulling out of the yards a day coach was derailed, and it was nearly an hour before the coach was replaced on the rails. Nobody was hurt as the train was moving slowly when the accident happened.

The wrecker was called out to Gravel switch last night to replace engine, No. 291, on the track. The engine was on a sidetrack when she jumped the track.

### Lost in the Woods.

Lost in the woods for several hours, a party of hunters returned to Paducah this morning at 4 o'clock exhausted after spending the night in the woods. Last night Fred West, W. H. Morrison, A. McCann, Paul West, Tom Copeland and Jake Adams, all employees in the round house, decided to catch a few ground hogs. They drove several miles out into the country, and then deserted the buggy. They wandered around until midnight looking for a view, but failed to find a single ground hog. Then when started for the buggy, it could not be found. From midnight until 3 o'clock this morning they wandered around until at last, through the guidance of a farmer, the buggy was found. When they reached the city each took a solemn oath swearing off from hunting ground hogs.
